[redacted] 25X1C

Dear [redacted] 25X1C

25X1A [redacted] has now been with you for a time and I hope will prove to be of some use. He can explain to you a little further what is meant by the symbols on our status of projects report. Without some such explanation I fear the report may be misleading as a good many of the things that are listed as projects are in fact little more than inter-office memoranda prepared in response to brief requests. I am enclosing a statement of what the symbols mean to supplement [redacted] explanation. 25X1A

We will dispatch to you, as soon as they are ready, everything we issue that can be called a proper project on which there is not some special limitation of distribution. Our machinery is probably no better than that of most bureaucracies, so if you do not get something you are eager for let me know either directly or through [redacted] and we will 25X1A either dispatch it or tell you the reason why we are not able to do so.

25X1C [redacted] is most interesting and helpful. We have nothing exactly comparable, but I enclose our latest abbreviated version for whatever use it may be to you.

Sincerely yours,

/s/

Max F. Millikan
